

9th Advances in Colorectal Oncology

Controversies and Emerging Approaches

NOVEMBER 6—7, 2025

Zuckerman Research Center, New York City
Virtual Option Available

*Featuring live surgical broadcasts, multidisciplinary
case discussions, and expert insights on current
controversies and emerging treatments.*

Memorial Sloan Kettering
Cancer Center

Overview

This two-day live symposium at Memorial Sloan Kettering Cancer Center (MSK) will focus on the surgical and multidisciplinary management of colorectal cancer. National and international leaders in surgery, medical oncology, and radiation oncology will address current controversies and highlight emerging approaches in the treatment of both localized and metastatic disease.

Highlights of this year's program include:

- **Live surgery presentations** streamed directly from MSK's operating rooms
- **Focused sessions exploring current controversies** in the medical and surgical management of rectal cancer, with a focus on TNT and Watch-and-Wait approaches
- **Cutting edge updates in the treatment of colorectal malignancies**, including advances in KRAS and BRAF targeted therapies
- **Reviews of recent clinical trials** in colon, rectal, and anal cancers
- **Interactive multidisciplinary tumor boards** featuring complex case discussions
- **Networking opportunities** to connect with leading experts and peers

This comprehensive program is designed to equip participants with the latest evidence-based strategies and multidisciplinary perspectives that are shaping the future of colorectal cancer care—ultimately **advancing clinical practice and improving patient outcomes.**

Target Audience

This symposium is intended for medical oncologists, radiation oncologists, interventional radiologists, colorectal/hepatopancreatobiliary/oncologic surgeons, gastroenterologists, pathologists, and other oncology care team members interested in rectal cancer.

Format

This symposium will be offered in a **hybrid format**, with in-person participation at MSK's Zuckerman Research Center in New York City and a virtual participation option available via Zoom.

Zuckerman Research Center
417 East 68th Street

Objectives

Participants will be able to:

- Describe the requirements for a successful, multidisciplinary colorectal cancer program
- Discuss technical options for the surgical management of distal rectal cancer
- Identify appropriate candidates for Watch and Wait and adjuncts to optimize organ preservation
- Discuss evidence-based practice recommendation for the management of metastatic colorectal cancer
- Review advancements in immunotherapy and alternative strategies for managing colorectal cancer

Post-Symposium Resources

Participants will receive access to an online syllabus following the symposium, which will include presentation recordings and faculty slide decks in PDF format.

Accreditation

Memorial Sloan Kettering Cancer Center is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

AMA Credit Designation Statement

Memorial Sloan Kettering Cancer Center designates this live activity for a maximum of **15.25 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

MOC/CC Recognition Statement

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to:

- 15.25 Medical Knowledge MOC Points in the American Board of Internal Medicine's (**ABIM**) Maintenance of Certification Assessment Recognition program; and
- 15.25 Accredited CME and Self-Assessment MOC points in the American Board of Surgery's (**ABS**) Continuous Certification program.

It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM or ABS MOC credit.

ANCC CNE Statement

Contact hours pending application approval.
