Radiologic Interpretation in the Oncology Population

Wednesday, May 20, 2026

*Participate **live virtually** or view **on demand**.*

Memorial Sloan Kettering
Cancer Center

Overview

Radiologic imaging plays a critical role in the care of patients across the cancer continuum.

This course provides a comprehensive overview of radiologic interpretation in oncology, covering imaging of the breast, pelvis, chest, abdomen, brain, spine, extremities, and whole body, with attention to pediatric and special populations.

Modalities include **X-ray, ultrasound, CT, MRI, and nuclear imaging**. The program also explores **innovative applications in interventional oncology** and features interdisciplinary, **case-based discussions** with interactive audience engagement.

This course is designed for physicians, nurse practitioners, physician assistants, nurse practitioner students, physician assistant students, clinical nurse specialists, nurses, radiology assistants, and certified registered nurse anesthetists.

Objectives

- Describe the principles and interpretation of common imaging modalities and translate the knowledge learned to clinical practice
- Identify the clinical indications for and selection criteria of various imaging modalities
- Recognize common abnormalities on various radiology examinations
- Address challenges and limitations of various imaging modalities
- Identify important considerations when interpreting radiologic imaging in special populations
- Discuss the differential diagnosis for common radiographic findings
- Explain the role of imaging in cancer screening, staging, and surveillance
- Describe the current and future use of artificial intelligence in radiologic imaging and interpretation

Participation Options

Participate Live Virtually

Attend the course in real time on **Wednesday, May 20, 2026**, and participate in live Q&A sessions and case-based discussions with faculty. Following the live event, participants will receive access to an online syllabus that includes recorded presentations from the course.

On Demand Access

Register now for the on demand option and you will be notified when the course content becomes available (a **few weeks** after the live event). The course includes recorded presentation that you can watch and claim credit at your convenience.

Registration

Registration Fees (Live Virtual & On-Demand)

- Physicians (MDs, PhDs, DOs): \$199
- Advanced Practice Providers: \$149
- Nurses and Other Healthcare Providers: \$99
- Residents and Fellows: \$25
- Industry Professionals*: \$350
- MSK Employees: Complimentary

*An industry professional is defined as any individual, irrespective of their provider type (such as MDs, PhDs, APPs, RNs, etc.) that is employed by an ineligible company.

Discounted registration is available for specific groups. For additional details and to register, visit the course website.
