

# 2026 Accelerated Review in Medical Oncology

October 23—24, 2026

Zuckerman Research Center  
New York City

Memorial Sloan Kettering  
Cancer Center

# Overview

Condensed into two comprehensive days, this accelerated course at **Memorial Sloan Kettering Cancer Center (MSK)** provides a high-yield review of the material tested in the **American Board of Internal Medicine (ABIM)** certification and recertification examinations in Medical Oncology.

As the body of knowledge of medical oncology expands rapidly in depth and complexity, successfully preparing for board examination has become increasingly challenging. This course is designed to provide a focused review of the diagnosis, staging, and management of solid tumors and malignant hematologic disorders. Emphasis will be placed on common, curable malignancies and other high-impact topics frequently tested on the boards.

Course content will be delivered through concise micro-lectures that efficiently cover essential concepts and key examination material. Participants will receive a **course workbook containing summary notes for each topic** to support study and exam preparation, while serving as a guide and resource for note-taking throughout the course.

The program will conclude with a **networking reception on Saturday evening**, providing participants with an opportunity to connect with faculty and colleagues, exchange ideas, and foster professional collaborations.

## Target Audience

This activity is designed for hematology/oncology fellows preparing for initial board certification, as well as medical oncologists seeking initial certification or recertification.

**Registration is complimentary for fellows to attend.**

**“Excellent program overall — I would definitely recommend it to colleagues. In addition to the lectures, the course workbook and end-of-course practice questions were extremely helpful.”**

**—2025 Participant**

## **Accreditation**

Memorial Sloan Kettering Cancer Center is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

This live activity has been approved to offer the following credit types:

- AMA PRA Category 1 Credit(s)<sup>™</sup>
- ABIM Maintenance of Certification (MOC)
