Overview

This two-day, live virtual symposium is presented by advanced practice providers and allied clinicians to provide advanced practice providers (NPs and PAs), nurses, physicians, and other interested health care team members with up-to-date information on new developments and innovations in cancer treatment, management, and research. This symposium aims to provide health care professionals with the knowledge, tools, and strategies needed to deliver state-of-the-art collaborative team care, improve patient outcomes, and enhance the quality of life in patients with cancer. Each session will include didactic lectures and inter-professional panels.

2021 Symposium Session Topics

- **Management Considerations in the Complex Cancer Patient**
- **Breast Cancer: An Integrated Team Model**
- **Management of Pediatric Cancers**
- **Addressing Psychosocial Needs of the Oncology Patient**
- **Improving Quality of Life**
- **Innovative Oncologic Programs**
- **Benign Hematology**
- **Head and Neck Cancer: An Integrated Team Model**
- **Integrating APP into the Care Team**
- **Radiologic Imaging in the Oncology Setting**
- **APP Professional and Leadership Development**

Who Should Attend

The target audience for this symposium includes nurse practitioners, physician assistants, nurses, physicians, and other health care team members collaborating to manage the care of the oncology patient.

Educational Objectives

1. Identify innovative treatment strategies for adult and pediatric cancers.
2. Discuss the integrated interprofessional disease management team model of care for the oncology patient.
3. Strategize how to address quality of life and the psychosocial needs of cancer patients throughout the care continuum.
4. Comprehend diagnostic imaging in the oncology setting to implement into practice.
5. Discuss innovative leadership and professional development of the advanced practice provider in our current healthcare climate.
