

Memorial Sloan Kettering
Cancer Alliance

4th Annual Advanced Practice Provider Oncology Symposium

NOVEMBER 14-15, 2023 • VIRTUAL

Overview

This two-day virtual symposium will provide advanced practice providers an overview of:

- Advances in cancer treatment and management
- Current evidence-based practice and research initiatives
- Inequities in underserved population
- Symptom management in the oncology population
- Trends in APP independent oncology practice
- Professional development engagement

This symposium aims to provide the tools healthcare professionals need to deliver state-of-the-art collaborative team care, improve patient outcomes, and enhance quality of life in patients with cancer.

Who Should Attend

The target audience includes nurse practitioners, physician assistants, certified registered nurse anesthetists, physicians, and nurses who care for oncology patients.

This well-rounded program in oncology will include a **four-hour dedicated pediatric breakout session** on Day 1 to address the learning needs of healthcare professionals practicing in this specialty.

We are pleased to offer **complimentary registration to nursing students and registrants residing in low and lower-middle-income countries**. Additionally, a **30% registration discount is available to members of the MSK Cancer Alliance**.

Educational Objectives

By attending this symposium, attendees will be able to:

- Identify innovative medical and surgical cancer treatment strategies for adult and pediatric cancers
- Explain initiatives that promote advanced practice provider practice and professional development
- Discuss ethical considerations seen throughout the cancer care continuum
- Describe the multi-disciplinary approach and specialized teams necessary to optimize care in the oncology population
- Formulate an optimal plan for the management of patients experiencing an oncologic emergency
- Recognize inequities in the screening, diagnosis, and management of cancer
- Identify cancer risk, assessment, prevention, and treatment in patients with a hereditary predisposition

Online Syllabus

Attendees will receive access to an online syllabus after the symposium. The syllabus includes select recorded videos of the presentations (slides) from the program.
