1st Advanced Practice Provider Oncology Symposium

The purpose of this symposium is to provide advanced practice providers (nurse practitioners and physician assistants) and nurses from MSK's Alliance institutions the latest information in new developments and innovations in cancer treatment management and research. The goals are to provide the tools health care professionals need to delivery state-of-the-art collaborative team care, improve patient outcomes, and enhance the quality of life in patients with cancer.

Target Audience

This course is intended for physicians, nurse practitioners, physician assistants and nurses who manage the care of the oncology patient

Learning Objectives

- Identify innovative treatment strategies for adult and pediatric cancers.
- Discuss the late effects of cancer treatment.
- Strategize optimal supportive care management for cancer patients throughout the care continuum.
- Comprehend the pathophysiology, signs and symptoms, and current management of various oncologic emergencies.
- Discuss the role of the APP in our current healthcare climate.

Live Simulcast

We are pleased to offer a live simulcast for the 1st Advanced Practice Provider Oncology Symposium, available for attendees unable to attend this course in person. CME credit will be offered for the live simulcast and active participation is encouraged throughout.

Attendees registered for the live simulcast option will receive detailed instructions via email prior to the start of the course. This will include information on how to engage with faculty and how to claim CME credit. For inquiries regarding the simulcast, please email cme@mskcc.org.

MSK Cancer Alliance

The MSK Cancer Alliance is a collaborative relationship, leveraging bi-directional learning for mutual improvement. It is composed of MSK and a small number of high-quality, community healthcare systems seeking to be centers of excellence in their respective communities with a focus on clinical research and a culture of improvement. The MSK Cancer Alliance strives to bridge the knowledge gaps between an academic comprehensive cancer center such as MSK and community hospitals in order to help facilitate the delivery of high-quality cancer care at the community level, an important need since most cancer care is delivered in the community setting. Discounted rate available for MSK Alliance members - please see registration for details.

Please note that providers outside of the MSK Cancer Alliance are encouraged to attend this symposium.
