The Pathology of Neoplastic Diseases | April 27 - May 1, 2020

Summary
This four and one-half day course will provide an up-to-date review of the pathology of selected sub-specialty areas of neoplastic disease, including gynecological, head and neck and breast pathology. Appropriate use of advanced diagnostic techniques such as immunohistochemistry, molecular pathology will be incorporated into the lectures, including the assessment of therapeutic biomarkers. Case presentations will also be integrated into some sessions. Finally, more interactive, intensive slide seminar sessions on selected topics in gynecological, head and neck and breast pathology will be available (registration is limited, additional fee apply). The Department of Pathology at Memorial Sloan Kettering Cancer Center has produced a course on the Surgical Pathology of Neoplastic Diseases for over 30 years. With the 36th edition, we continue to expand the scope of the course to reflect the increasing contributions of cytopathology, immunopathology, and molecular pathology. The course faculty will include the attending pathology staff from Memorial Sloan Kettering Cancer Center along with selected clinical faculty. Course participants will receive a complete syllabus within our new CME portal, along with digitized glass slides of cases for review. The course will be held on the campus of Memorial Sloan Kettering Cancer Center on the Upper East Side of Manhattan, a vibrant and safe neighborhood within easy access to a broad range of restaurants and activities. A full breakfast and lunch will be provided daily.

Audience
This course is directed toward practicing pathologists, both in academic and private practice environments, as well as residents and fellows in pathology, who wish to broaden their understanding of neoplastic diseases.

Accreditation Statement
Memorial Sloan Kettering Cancer Center is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

AMA Credit Designation Statement
Memorial Sloan Kettering Cancer Center designates this live activity for a maximum of 28.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Self Assessment Modules (SAMs)
This program is registered with the American Board of Pathology’s (ABPath) Maintenance of Certification program to offer 48.5 Lifelong Learning (Part II) and Self-Assessment Module (SAM) credits.

Location
Memorial Sloan Kettering Cancer Center Rockefeller Research Laboratories Auditorium 430 East 67th Street, Between First and York Avenues New York, NY 10021 Phone: 212-517-2696 Fax: 212-535-0773 E-mail: cooks@mskcc.org

רגistration Notes

Early*: General*** $1000 $1100 MDs, PhDs and DOs $100 $250 Residents and Fellows** $650 $750

**Deadline is April 15, 2020.

***A reduced rate of $650 ($750 after 4/15/20) is offered to pathologists-in-training; the registration must be accompanied by a letter from the residency or fellowship program director certifying the applicant’s status. Optional slide seminars are offered for an additional fee of $50 each. Seating is limited. Optional slide seminars: 1. Pathology of Three Areas (Mon. 4/27) 2. Breast Pathology (Tues. 4/28) 3. Gynecological Pathology (Thurs. 4/30)

Registration fees include attendance at the course, handout materials, and meals. Written notice of lation must be received no later than April 15, 2020. Refunds are subject to a $75 administrative charge and will be processed after the conference. For more information, please contact the CME office at 646-227-2025, Fax: 212-535-0773, Address: 633 Third Avenue, 12th FL, New York, NY 10017 or via e-mail cme@mskcc.org.

Please visit: www.mskcc.org/neoplasticdiseases to register or for more information.

Educational Objectives
Participants will learn the current classifications and diagnostic criteria for tumors and tumor-like lesions of the selected sub-specialty areas, including both common and unusual entities. The appropriate use of ancillary diagnostic techniques will be highlighted. Complete differential diagnoses will be discussed, and a practical, problem-oriented approach to the pathologic evaluation of specimens will be emphasized. Participants will learn about the clinical features of the various tumor entities along with pathologic and molecular prognostic factors and predictors of therapeutic responsiveness.

Goals of the Course
This course is directed toward practicing pathologists, both in academic and private practice environments, as well as residents and fellows in pathology, who wish to broaden their understanding of neoplastic diseases.

Course Design
This course consists of didactic lectures and question and discussion periods as well as interactive slide seminars. The lectures are organized by the specific sub-specialties to be covered this year, with 1-2 days devoted to each of these areas (gynecological pathology, head and neck pathology and breast pathology).

**The Pathology of Neoplastic Diseases | April 27, May 1, 2020**

**Course Faculty**

- Amir Momeni Boroujeni, MD, Gynecological Pathology
- Melissa Murray, MD, Gynecological Pathology
- Kay Port, MD, Breast Pathology
- Jorge Reis-Filho, MD, PhD, Gynecological Pathology
- Dara S. Ross, MD, Breast Pathology
- Robert Soslow, MD, Breast Pathology
- Britta Woitght, MD, Gynecological Pathology
- Gene W. Yothers, MD, Breast Pathology

**Associate Course Directors**

- Edi Brogi, MD, PhD, Breast Pathology
- Ronald Ghossein, MD, Breast Pathology
- E. Wayne Wood, MD, Breast Pathology
- Maria Gabriela Kuba, MD, Gynecological Pathology
- Hong Amy Zhang, MD, Breast Pathology

**GUEST FACULTY**

- Laura C. Collins, MD, Assistant Attending Pathologist
- Sarah Chiang, MD, Assistant Attending Pathologist
- Britta Woitght, MD, Assistant Attending Pathologist
- Ha Nguyen, MD, Assistant Attending Pathologist
- Hannah Y. Wen, MD, Assistant Attending Pathologist
- Robert Soslow, MD, Breast Pathology

**COURSES**

- **Monday, April 27, 2020**
  - 10:15–10:45 AM: Variable and Squamous Cell Carcinoma of the Upper Aerodigestive Tract
  - 11:15–12:00 PM: Break
  - 12:15–1:30 PM: Problems and Controversies in Thyroid Carcinoma of Follicular Cell Origin
  - 1:30–2:15 PM: Papillary Lesions
  - 2:15–3:00 PM: Frozen Section Diagnosis in Head and Neck
  - 3:00–3:30 PM: Fine Needle Aspiration of the Thyroid
  - 3:45–4:15 PM: Break
  - 4:30–6:00 PM: Lymph node metastases: Current Concepts and Diagnostic Approach

- **Tuesday, April 28, 2020**
  - 8:00–8:45 AM: FNA of the Thyroid
  - 8:45–9:15 AM: Frozen Section Diagnosis in Head and Neck
  - 9:15–10:30 AM: Morphology and Genetics of Poorly Differentiated/Undifferentiated Neoplastic Tumors
  - 10:30–10:55 AM: Break
  - 10:55–11:25 AM: Papillary Lesions
  - 11:25–12:00 PM: B-NH (Brenner) Tumors
  - 12:00–1:30 PM: Lymph node metastases: Current Concepts and Diagnostic Approach

- **Wednesday, April 29, 2020**
  - 8:00–8:30 AM: Vascular Lesions
  - 8:30–9:00 AM: Fibroepithelial Tumors
  - 9:00–9:30 AM: Spindle Cell Lesions
  - 9:30–10:00 AM: Break
  - 10:00–10:45 AM: Thyroid carcinoma in situ: Diagnosis and Management
  - 10:45–11:15 AM: Reactive and Inflammatory Breast Lesions
  - 11:15–11:45 AM: Molecular Testing in Breast Cancer
  - 11:45–12:15 PM: Break

- **Thursday, April 30, 2020**
  - 8:00–8:45 AM: Cervical Adenocarcinomas: A New Paradigm in Classification (WHO 2020)
  - 8:45–9:30 AM: Vulvar Squamous Carcinoma and Precursor Lesions: Advances and Their Impact on Management
  - 9:30–10:00 AM: Endometrial biopsy interpretation: artefacts and limitations
  - 10:00–10:45 AM: High Grade Endometrial Carcinoma: Recent Advancements and Limitations
  - 11:45–12:15 PM: Break

- **Friday, May 1, 2020**
  - 8:00–8:45 AM: Low Grade Serous Ovarian Neoplasia
  - 8:45–9:30 AM: High Grade Serous Pelvic Carcinoma
  - 9:30–10:00 AM: Familial Cancer Syndromes
  - 10:00–10:45 AM: Genitourinary Carcinoma: Recent Advances in Clinical and Molecular Correlation

All sessions will be held in the Auditorium of the Rockefeller Research Laboratories, located at 430 East 65th Street between York and First Avenues on the Upper East Side of Manhattan.
