

Contemporary Management of **Complex Skin Cancers**

NOVEMBER 1—2, 2024 • NEW YORK CITY

This unique course delivers cutting-edge updates on the multidisciplinary approaches to managing complex skin cancers.

Memorial Sloan Kettering
Cancer Center

Overview

This unique course delivers cutting-edge updates on the multidisciplinary approaches to managing complex skin cancers, including high-risk squamous cell carcinoma, Merkel cell carcinoma, and melanoma.

Advances in complex skin malignancies will be presented and discussed in a collaborative tumor board format, featuring a distinguished panel of Memorial Sloan Kettering Cancer Center experts from Mohs and Dermatologic Surgery, Head and Neck Surgery, Medical, Surgical, and Ophthalmic Oncology, Pathology, and Radiation Oncology.

With a focus on novel diagnostic methods and updates in tumor classification, attendees will gain **valuable insights into the contemporary practices that are shaping the field.**

2024 SYMPOSIUM HIGHLIGHTS

This year's program will encompass:

- Recent advances in **Squamous Cell Carcinoma**, including developments in staging, neoadjuvant, and innovative treatment modalities.
- Multidisciplinary case-based discussion on **hereditary cancer syndromes**, including Lynch and Gorlin.
- Update on **Merkel Cell Carcinoma** including the latest breakthroughs and insights.
- New case-based session focused on **Mohs tissue processing** for eyelid, nail, ear skin malignancies and **reconstruction** techniques

- **Pearls and advances in modern approaches**, addressing prevention, wound healing, scar revision, and noninvasive imaging.
- Recent advances and hot topics in the management and treatment of **melanoma**, including neoadjuvant and TIL therapy.
- Key sessions will culminate in a **multidisciplinary tumor board**, encouraging active participation and questions from attendees.

Ample time will be provided for networking during breaks and fostering professional collaborations among attendees and our esteemed faculty members. **As this course is ideally suited for an in-person format, a virtual option will not be available.**

TARGET AUDIENCE

The course is intended for physicians and allied health professionals, who care for patients with skin cancer, including dermatologists, surgical and medical oncologists, otolaryngologists, ophthalmologists, general surgeons, plastic surgeons, pathologists, and radiation oncologists.

Discounted registration is available for specific groups. Refer to the course website for details.

Take advantage of our early registration rates, available through September 1. Learn more or register:
