CURRENT CONCEPTS IN

HEAD & NECK ONCOLOGY

This two day course will discuss current advances in the management of head and neck tumors. The format includes lectures, panel discussions, and operative techniques. Ample time will be allotted for participation by the audience with questions and answers. The workshop will be valuable to otolaryngologists, head and neck surgeons, radiation oncologists, medical oncologists, oral-maxillofacial surgeons, and physician assistants.

SYMPOSIUM HIGHLIGHTS

- Management of thyroid cancer
- State-of-the-art management of cancer of the oral cavity and oropharynx
- Management of skin cancer and laryngopharyngeal cancers
- Current status of combined modality and advances in radiation and medical oncology
- Surgical techniques of complex head and neck procedures

Renowned faculty from Memorial Sloan Kettering Cancer Center, MD Anderson and University of Toronto will be leading the discussions.

Senior faculty members include:

Richard Wong, MD, Jatin Shah, MD, Ashok Shaha, MD, Randal Weber, MD, Ehab Hanna, MD, Patrick Gullane, MD, Ralph Gilbert, MD, and many other faculty members.
