Memorial Sloan Kettering
Cancer Center

Overview

This four-day live course will provide an up-to-date and comprehensive review of the diagnosis, staging, and management of neoplastic disease, including solid tumor and hematologic oncology. Lectures will focus on disease specific topics in **gastrointestinal, gynecologic, thoracic, head and neck, genitourinary, soft tissue and skin, and central nervous system oncology**, as well as **hematologic oncology**. Each lecture will conclude with a **live Q&A** with esteemed MSK course faculty.

Additionally, registered attendees will receive access to an **online course syllabus**, which includes select PDFs of the faculty presentations (slides) and recorded videos from the course.

The target audience for this well-received annual program includes **medical oncology professionals** - physicians, nurses, pharmacists, fellows and residents.

Educational Objectives

By attending this live virtual activity, attendees will be able to:

- Define state-of-the-science in diagnosis, staging, and therapeutic management of solid tumor cancers and hematologic cancers
- Discuss recent treatment advances in solid tumor and hematologic oncology and apply knowledge gained in modern clinical practice
- Prepare for ABIM examinations in medical oncology and hematology

Live Virtual Format (Zoom)

This live virtual program will be delivered using Zoom. **CME credit and ABIM MOC points** will be offered for this live virtual program. Detailed access and credit instructions will be emailed to attendees prior to the start of the course.

“This virtual course was well organized and presented.

An excellent review and update of oncology clinical practice.

World-class speakers!

This is an excellent conference and not just for the boards. I take it every 2-3 years as a refresher and to see what is coming down the pipeline.
