WORKSHOP TRACK 2: Perioperative/ Emergency Medicine

A novel program specifically designed for Anesthesia and Emergency Medicine providers. This curriculum will focus on advanced ultrasound guided regional anesthesia techniques for the operating and emergency room (taught through live model and hands-on cadaver experience). Furthermore, difficult airway scenarios, point of care technologies, and diagnostic ultrasound techniques will be taught.

WORKSHOP TRACK 3: Peripheral Nerve Stimulation/Spine

The field of peripheral nerve stimulation and regenerative medicine is rapidly changing, and this program will highlight these evolving fields. This workshop will emphasize ultrasound guided techniques in the use of peripheral nerve stimulators for pain patients and advanced ultrasound techniques in applying the newest technologies in regenerative medicine.
WORKSHOP TRACK 4:
Musculoskeletal/Regenerative Medicine

This workshop track is an introduction into ultrasound training for musculoskeletal injuries and regenerative medicine. Advanced regenerative medicine techniques will be discussed in the second half of the workshop.
