

8th Annual MSK Symposium on Lymphoma

APRIL 26-27, 2024 • IN-PERSON / VIRTUAL

ZUCKERMAN RESEARCH CENTER
417 EAST 68TH STREET, NEW YORK, NY

Memorial Sloan Kettering
Cancer Center

Overview

Join us for the 8th edition of the **MSK Symposium on Lymphoma**, where renowned international and national experts will provide a comprehensive update on the continually evolving landscape of lymphoma research. Explore the latest breakthroughs in lymphoma biology, cutting-edge diagnostics, and groundbreaking treatment strategies that are reshaping the future of patient care.

This year's symposium will focus on the clinical management of the most prevalent lymphoma types, while also unveiling exciting developments in new drugs that promise to revolutionize treatment options. Faculty will present these innovations and engage in dynamic panel discussions on how to practically tailor patient care for the best outcomes. Furthermore, the program will include an impactful keynote lecture, exciting hot topics, and extensive networking opportunities, both during breaks and at our two receptions. Specifically for our interprofessional care team, a dedicated session on nursing professional development will be offered.

Don't miss the opportunity to explore the latest advancements in lymphoma biology and pathology, understanding how these discoveries pave the way for innovative therapies. Join us in the exploration from scientific breakthroughs to solutions, alongside our distinguished faculty.

This symposium offers participants the choice of attending either in person at Memorial Sloan Kettering's Zuckerman Research Center or virtually via Zoom. Exclusive sessions are available to those who attend in person.

Exclusive In-Person Sessions

In-person attendees have the chance to register for exclusive sessions available only to those attending in person, including:

Nursing Professional Development Breakout Session

FRIDAY, APRIL 26

We're excited to offer a dedicated session to the education of nursing professionals. As this session is **limited to 35 participants**, we encourage early registration.

Welcome Networking Reception

FRIDAY, APRIL 26

We invite attendees to join the symposium faculty for a networking reception on Friday evening. This exclusive event will take place in the lobby of the Zuckerman Research Center, and RSVP is required for attendance. Hors d'oeuvres and refreshments will be served.

Concluding Luncheon

SATURDAY, APRIL 27

We invite attendees to join us for a farewell luncheon on Saturday afternoon following the symposium's conclusion. To confirm your participation in the luncheon, please select this option during your registration.

Online Syllabus

Attendees will receive access to an online syllabus after the symposium. This will include select PDFs of the faculty presentations (slides) and recorded videos from the symposium.

Please note that the Nursing Professional Development Breakout Session will be recorded and made available on the syllabus to all attendees.

Who Should Attend

The target audience for this symposium includes internists, oncologists, hematologists as well as medical and radiation oncologists, hematopathologists, scientists, and medical trainees involved in the diagnosis, treatment, and biomedical research of lymphoma.

Learning Objectives

At the conclusion of this symposium, attendees will be able to:

- Describe recent refinements in lymphoma classification
- Discuss first line treatment options in the most frequent lymphoma entities
- Discuss options and recommendations for patients in the relapse refractory setting, including the integration of recently approved therapies
- Provide adequate information to help shared decision making with patients regarding their treatment
