2018 CANCER REHABILITATION SYMPOSIUM

A Collaborative Approach to Enhance Quality of Life

This symposium will provide healthcare professionals with new or enhanced knowledge that can be implemented in the evaluation and management of cancer and treatment-related impairments. Emphasis will be placed on how to address the rehabilitative needs of patients with adult and pediatric cancers.

This two-day symposium includes Friday afternoon plenary sessions followed by break-out sessions on Saturday that attendees may select during registration. Included in this program will be special “Meet the Experts” panels with both physicians and therapists to discuss program development with time for Q&A.

Networking Reception April 13, 2018 5:30 – 7:00 PM

Attendees are invited to join the course faculty for a networking reception at Rockefeller Research Laboratories immediately following the course on day one from 5:30 pm-7:00 pm. Food and refreshments will be served.

Target Audience

This symposium is intended for physicians, psychologists, physical therapists, occupational therapists, physical and occupational therapy assistants, nurses, nurse practitioners, and other healthcare professionals interested in cancer rehabilitation.

Learning Objectives

- Identify recent advances in the diagnosis, treatment, and rehabilitation of individuals living with cancer
- Communicate new evidence-based practice and clinical treatment approaches to clinicians working with individuals across the cancer continuum.
- Discuss the interdisciplinary approach to the care of individuals with cancer to promote safe and effective rehabilitation at all stages of the cancer experience from initial diagnosis to palliative care.
- Discuss oncology rehabilitation program development with physician and therapy experts.

CALL FOR ABSTRACTS

Submission Deadline: March 31, 2018

Participants are invited to submit an abstract for presentation at the course. Abstracts for the poster session will be selected on the basis of scientific merit and content quality.

For more information or to submit an abstract online, visit: www.mskcc.org/RehabSymposium
