4th Annual Advances in THORACIC SURGICAL ONCOLOGY

Memorial Sloan Kettering Cancer Center is pleased to announce the **4th Annual Advances in Thoracic Surgical Oncology** CME course on October 6-7, 2017 at Rockefeller Research Laboratories.

OVERVIEW

Physicians and allied health professionals will improve their understanding of contemporary, minimally invasive surgical approaches to lung and esophageal cancers. The course will help participants to appreciate the importance of a multidisciplinary approach to diagnosing and treating thoracic malignancies and to understand the roles of thoracic surgery in the era of targeted therapy.

EDUCATIONAL OBJECTIVES

- Improve the understanding of contemporary surgical approaches, including minimally invasive techniques for lung and esophageal cancers.
- Appreciate the importance of a multidisciplinary approach to diagnosing and treating thoracic malignancies.
- Understand the multiple roles of thoracic surgery in the era of targeted therapy.

MSK COURSE DIRECTOR

David R. Jones, MD

Professor & Chief, Thoracic Surgery Service
Fiona and Stanley Druckenmiller Chair for
Lung Cancer Research
