ADVANCES IN
COLORECTAL ONCOLOGY
2017

COURSE OVERVIEW

Memorial Sloan Kettering Cancer Center announces the second annual conference of our **Advances in Colorectal Oncology** series. The overall objective of this course is to bring participants up to date on the latest **advances in minimally invasive treatment of colorectal cancer** and **multimodal treatment of rectal cancer**. In addition to lectures, the course will include opportunities for interactive exchange of ideas between participants and faculty.

TARGET AUDIENCE

The target audience includes medical oncologists, radiation oncologists, radiologists, surgical oncologists, colorectal surgeons, gastroenterologists, and specialists in internal medicine.

EDUCATIONAL OBJECTIVES

- Update the learner on the progress made in the area of treatment of rectal cancer
- Bring participants up to date on the latest advances in minimally invasive treatment of colorectal cancer and multimodal treatment of rectal cancer
- Increase familiarity with new techniques and best practices to treat rectal cancer

CALL FOR ABSTRACTS

Submission Deadline: October 1, 2017

Participants are invited to submit an abstract for presentation at the course. Abstracts for the poster session will be selected on the basis of scientific merit and content quality. **Three travel grants will be awarded.** For more information or to submit an abstract, visit:
www.mskcc.org/ColorectalCourse

PROGRAM AT A GLANCE

NOV. 9

TRI-INSTITUTIONAL SYMPOSIUM Colorectal Cancer Robotic Surgery

In Collaboration with:

MD Anderson Cancer Center and **Mayo Clinic**

Program Highlights:

- **Live Surgery Video Stream from MSK's Operating Rooms**
- Controversies in Robotic Surgery
- Controversies in Rectal Cancer Surgery

Cocktail Reception

All course participants are invited to join the course faculty for a cocktail reception on Thursday evening from 5:30-7:00 pm.

NOV. 9

RECTAL MRI WORKSHOP

There will be a concurrent hands-on Rectal MRI Workshop during the Tri-Institutional Symposium for practicing radiologists and radiologists in training as well as anyone with an interest in pelvic MRI.

NOV. 10-11

CENTENNIAL SYMPOSIUM Celebrating a Century of Multimodality Rectal Cancer Care

Program Highlights:

- Rectal Cancer in 2017: Reflecting on a Century of Multimodality Rectal Cancer Care
- Staging Rectal Cancer: Shades of Gray and Pink
- Early-Stage Rectal Cancer
- Radiation Therapy
- Chemotherapy in Rectal Cancer
- Watch & Wait: The Nonoperative Approach to Rectal Cancer
- Tumor Board

This educational activity is endorsed by the AGA Institute.

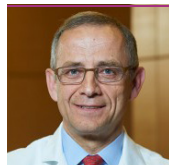

TRI-INSTITUTIONAL SYMPOSIUM COLORECTAL CANCER ROBOTIC SURGERY

In collaboration with MD Anderson Cancer Center and Mayo Clinic, the Tri-Institutional Symposium will feature a live surgery video stream from MSK's operating rooms.

RECTAL MRI WORKSHOP

The use of pelvic MRI in routine clinical practice is growing rapidly, mainly due to the extensive literature supporting its clinical value and expanding clinical indications. This hands-on course will offer the opportunity to learn or brush up on rectal MRI skills. Short lectures and whole case reviews on individual workstations will demonstrate the pearls and pitfalls in the evaluation of rectal MRI performed for staging and follow-up evaluations. (One workstation per participant.)

This educational activity is designed for practicing radiologists and radiologists in training as well as anyone with an interest in pelvic MRI.

EDUCATIONAL OBJECTIVES

- Become familiar with rectal MRI indications, acquisition protocols and the normal appearance of male and female pelvic structures as visualized by MRI
- Identify abnormal findings on rectal MRI scans and understand the relevance of these findings to patient care
- Recognize the imaging characteristics of treated rectal cancers and the evolution of findings during non-operative surveillance MRI exams
- Appreciate the value of structured reporting and a standardized lexicon in pelvic MRI
