Memorial Sloan Kettering Cancer Center presents the:

STATE-OF-THE-ART
OVARIAN CANCER CONFERENCE

OCTOBER 5, 2017
Zuckerman Research Center
417 East 68th Street
New York, NY
STATE-OF-THE-ART
OVARIAN CANCER
CONFERENCE

Advances in women’s health research provides important opportunities to enhance the screening and prevention of ovarian cancer. New modalities in the treatment of the disease provides the ability to individualize therapy, accomplish best clinical outcomes, and optimize the patient experience.

This course is composed of lectures and interactive audience participation encouraging the intellectual exchange of ideas between faculty and participants. Additionally, this year’s program will also feature new breakout sessions.

The target audience includes all clinicians, scientists and advocates interested in women’s health, and in optimizing the prevention, screening and treatment for ovarian cancer. Clinicians including OB/GYNs, surgical/medical/gynecologic oncologists, primary care physicians, physician assistants, nurse practitioners, nurses, fellows and residents and other healthcare professionals are welcome.

EDUCATIONAL OBJECTIVES

- Discuss new genetic panel testing and its implication, results of recent ovarian cancer screening trial, and strategies for ovarian cancer risk-reduction.
- Present new algorithms for imaging and surgical case selection.
- Evaluate emerging opportunities in clinical trial options, individualized treatment, and enhanced patient experience.
