September 8-9, 2017

NEW YORK CITY

IN PARTNERSHIP WITH:

Memorial Sloan Kettering Cancer Center

INTERVENTIONAL CANCER PAIN SYMPOSIUM

SEPT 8-9 | NEW YORK CITY

The Memorial Sloan Kettering Cancer Center **Interventional Cancer Pain Symposium** will showcase the state of the art techniques for management of cancer pain syndromes. We will focus on disease specific paradigms for cancer pain treatments. Furthermore, our faculty will be teaching advanced procedures which pain physicians, neurosurgeons, radiologists, rehabilitation and other specialists may use to treat their cancer patients.

SYMPOSIUM HIGHLIGHTS

- **Ultrasound and Fluoroscopy Cadaver Workshop**
- **Comprehensive Intrathecal Drug Delivery Paradigms**
- **Techniques in Neuroablation and Neuromodulation for Cancer Pain**
- **Advances in Rehabilitation for Oncologic Pain**
- **General Concepts in Cancer Pain Medicine Course**

EDUCATIONAL OBJECTIVES

- Discuss and implement treatment paradigms for specific cancer pain syndromes
- Perform common procedures which may improve an oncologic patient's pain symptoms
- Discuss complicated oncologic cases with experienced faculty in the field of cancer pain medicine

MSK COURSE DIRECTOR

Amitabh Gulati, MD
