

Live Virtual Experience

PERSONALIZED TREATMENT OF
SOFT TISSUE SARCOMA

Wednesday, September 2, 2020
7:00-8:00 PM

Memorial Sloan Kettering
Cancer Center

Complimentary registration:
[mskcc.org/primarySTS](https://www.mskcc.org/primarySTS)

Overview

At Memorial Sloan Kettering Cancer Center (MSK), making an accurate sarcoma diagnosis is a key first step in developing a personalized treatment plan. Soft tissue sarcoma operations are best performed by surgeons who are highly experienced in removing soft tissue tumors.

At MSK, we see more than 700 new patients with soft tissue sarcoma each year. We are often able to remove tumors that are considered inoperable at other cancer centers. We have published our experience in the diagnosis and treatment of more than 10,000 people with soft tissue sarcoma.

Radiation therapy is another important part of care for some people with soft tissue sarcoma. Radiation may be given before surgery to shrink a tumor or after surgery to reduce the chances that a tumor will come back. MSK's radiation oncologists have special training in caring for people with soft tissue tumors.

Learning Objectives

- Understanding of soft tissue sarcoma treatment and research at Memorial Sloan Kettering Cancer Center
- Introduction to new diagnostic methods
- Use of surgery as a primary treatment
- Show adjuvant therapy use for local control
- Receive updates in neoadjuvant and adjuvant chemo/immunotherapy

This event is complimentary to all registered attendees.

By registering for this live virtual course, you will be able to view presentations, hear live audio, and interact online. CME credit will be offered for this course and a certificate will be available after a course evaluation is complete. This event will be fully web-based, so all you will need is a computer, phone, or tablet and an internet connection.

REGISTER ONLINE:

MSK Course Director

Sir Murray Brennan, MD, GNZM, FACS

Senior VP, International Programs
Director, The Bobst International Center
Chairman Emeritus, Department of Surgery
Benno C. Schmidt Chair in Clinical Oncology

MSK Course Faculty

Cristina Antonescu, MD

Attending Pathologist
Director, Bone and Soft Tissue Pathology
Director, Cristina R. Antonescu Lab

Kaled Alektiar, MD, FASTRO

Attending Radiation Oncologist
Radiation Oncology Service

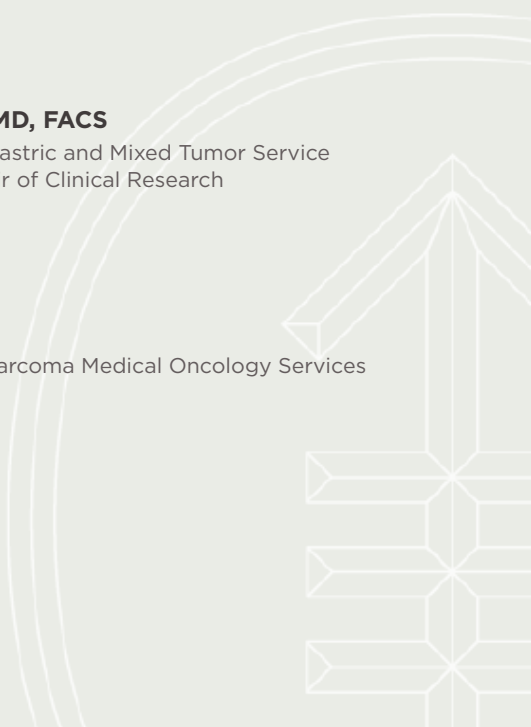

Samuel Singer, MD, FACS

Chief Attending, Gastric and Mixed Tumor Service
Vincent Astor Chair of Clinical Research

William Tap, MD

Chief Attending, Sarcoma Medical Oncology Services

Virtual Schedule

All times are U.S. Eastern Time

6:50 PM	Virtual Course Check-in
7:00 PM	Welcome and Introduction: STS at MSK Sir Murray Brennan, MD, GNZM, FACS
7:10 PM	Presentations: Diagnosis Cristina Antonescu, MD Surgery as Primary Treatment Samuel Singer, MD, FACS Radiation as an Adjuvant for Local Control Kaled Alektiar, MD, FASTRO Neoadjuvant and Adjuvant Chemo/immunotherapy William Tap, MD
7:50	Q&A with Faculty
8:00 PM	Adjourn

Accreditation

Memorial Sloan Kettering Cancer Center is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

AMA Credit Designation Statement

Memorial Sloan Kettering Cancer Center designates this live activity for a maximum of **1.00 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Memorial Sloan Kettering (MSK) has a dedicated team at the Bobst International Center to provide timely and compassionate assistance to any patient around the world diagnosed with cancer who would like to seek services from a MSK doctor. These services include onsite care as well as a remote written and video consult options with our expert physicians.

For an international patient consult, contact:
