

"This was one of the most interesting and enjoyable meetings that I have ever attended." 2015 Participant

12th Annual DERMOSCOPY INTERMEDIATE COURSE

October 14-15, 2016

Special Dermatology Course Discount

Please refer to registration section for more information.

Memorial Sloan Kettering
Cancer Center

Conference Location:

Memorial Sloan Kettering Cancer Center
Zuckerman Research Center
417 East 68th Street New York, NY 10065

www.mskcc.org/dermoscopy2016

Course Overview

Dermoscopy permits the observer to visualize skin structures located below the stratum corneum that are not visible to the unaided eye. The morphology visualized through dermoscopy has led to improved clinical diagnostic accuracy with increased sensitivity and specificity for the detection of cutaneous malignancies.

EDUCATIONAL OBJECTIVES

As a result of participating in this activity, participants should be able to:

- Outline a logical and easy to follow framework for the dermoscopic evaluation of cutaneous lesions.
- Identify the features of both melanocytic and non-melanocytic lesions.
- Describe a management approach, based on dermoscopic findings, to correctly identify lesions requiring biopsy.

TARGET AUDIENCE

This educational activity is designed for Dermatologists, Family Physicians, General Internists, Nurse Practitioners and Physician Assistants.

Course Faculty

**Ashfaq
Marghoob MD**

Associate
Attending Physician
Head, Hauppauge
Dermatology Section
MSK

**Michael A.
Marchetti, MD**

Assistant

of Zürich, Switzerland

**Harold S.
Rabinovitz MD**

Skin & Cancer Associates
Plantation, Florida
Clinical Professor of
Dermatology
University of Miami
School of Medicine

Memorial Sloan Kettering Skin Cancer Center (MSK) Hauppauge provides state-of-the-art skin cancer care in a location that is convenient for residents of Long Island. Our doctors are experts in skin cancer screening and treatment for squamous cell carcinoma, basal cell carcinoma, melanoma, and other types of skin cancer.

The main priorities of the **Department of Dermatology, University Hospital of Zürich, Switzerland**, are malignant melanoma and inflammatory skin diseases such as psoriasis and atopic dermatitis, as well as other, rarer skin conditions.

Skin and Cancer Associates (SCA) and the Center for Cosmetic Enhancement® (CCE) is a private dermatology group comprised of 80 Dermatologists, Nurse Practitioner's and Physician's Assistants at more than 25 locations in Florida.

Friday, October 14, 2016

- 7:00-8:00am REGISTRATION AND BREAKFAST
- 8:00-8:45am INTRODUCTION
Ashfaq Marghoob MD
- 8:45-9:45am The Bridge: Dermoscopy Structures with
Histopathology Correlations
Ralph P. Braun MD
- 9:45-10:30am Pre-Test
Ashfaq Marghoob MD
- 10:30-11:00am BREAK
- 11:00-11:40am 2-Step Algorithm & TADA
Ashfaq Marghoob MD
- 11:40-12:00pm Dermoscopy Complements Clinical:
DF as an Exemplar
Michael A. Marchetti MD
- 12:00-12:30pm Cases Using 2 Step & TADA
Michael A. Marchetti MD

FACULTY DISCLOSURE

It is the policy of MSK to make every effort to insure balance, independence, objectivity, and scientific rigor in all continuing medical education activities which it sponsors as an ACCME accredited provider. In accordance with ACCME guidelines and standards, all faculty participating in an activity sponsored by MSK are expected to disclose any significant financial interest or other relationship with the manufacturer(s) of any commercial product(s) and/or provider(s) of commercial services which are discussed by the faculty members in an educational presentation. As required by the ACCME, when an unlabeled use of a commercial product or an investigational use not yet approved for any purpose is discussed during an educational activity, MSK requires the speaker to disclose that the product is not labeled for the use under discussion or that the product is still investigational.

****Industry Members:** Registration is for educational purposes only. Marketing, sales, and promotion of products and services are prohibited at CME activities.
