Thrombosis & Hemostasis

Course Overview

This course provides an important annual educational forum for physicians and others in Thrombosis and Hemostasis. In particular, we seek to provide Hematology/Oncology practitioners and fellows in training with this important educational opportunity that they may otherwise not have access to. This information is meant to enhance knowledge and provide state-of-the-art care to patients.

TOPICS/ EDUCATIONAL OBJECTIVES

- Update on new oral anticoagulants, including guidance on safe and effective use, and the status of reversal agents.
- Clotting Factor Replacement Therapy: New innovations.
- Thrombocytopenia. ITP and beyond.
- Common Acquired Bleeding Disorders.
- Coagulation Testing and Interpretation.

Upon completion of this conference, attendees will have a strong understanding of the topics presented.

TARGET AUDIENCE

This course is directed toward Hem/Onc doctors in practice for a yearly update on thrombosis and hemostasis as well as fellows in training programs.
