Are CARs Over Taking Transplant in Lymphoma?

This luncheon will feature updated information on treatment of hematological malignancies during the dawn of the era of immunotherapies in the form of checkpoint inhibitors and chimeric antigen receptor (CAR) T cells. Faculty will review the current standard curative therapy (hematopoietic cell transplantation) and how it has evolved. Participants will have the opportunity to ask questions regarding diagnosis and management, and how to determine treatment standards for the best chance of cure.

EDUCATIONAL OBJECTIVES

- To provide up-to-date information on recent treatment options for patients with Hodgkin and non-Hodgkin lymphoma.
- To provide up-to-date information on potential risks with both HCT and CAR T cells.

LUNCHEON AGENDA

- 1:30 PM **Lunch & Welcome**
- 1:40 PM **Stop and Go: Hematopoietic Cell Transplantation in the Era of Chimeric Antigen Receptor T cells and Checkpoint Inhibitors**
Miguel-Angel Perales, MD
Craig S. Sauter, MD
- 2:10 PM **Q&A and Closing Remarks**
- 2:15 PM **Adjourn**

RSVP REQUIRED - SPACE IS LIMITED

Registration for this luncheon is complimentary. In order to attend, you must be registered for the **3rd Annual MSK Lymphoma Symposium**:
