Genetic Characterization of Myeloma Cells and Reprogramming of T-cells:

MODERN MYELOMA TREATMENT

Faculty will review the current standard of care and present their own perspectives on how they treat various types of myelomas. Participants will have the opportunity to discuss diagnostic and management cases, and how to incorporate biologic and genetic biomarkers into clinical practice and clinical trials.

EDUCATIONAL OBJECTIVE

 Learn updated information on myeloma biology, diagnosis, immunology, and genetics, and ongoing efforts to translate the scientific discoveries into novel treatment strategies

TARGET AUDIENCE

This luncheon is intended for medical and radiation oncologists, hematopathologists, scientists, and medical providers involved in diagnosis, treatment, and biomedical research of hematological malignancies.

LUNCHEON AGENDA

| 12:15 рм | Lunch & Welcome |
|----------|--|
| 12:25 рм | CAR T cell Therapy for Multiple Myeloma: Current Status and Future Promise Sham Mailankody, MBBS |
| 12:40 рм | Emerging Insights on Myeloma Genetics: Clinical Implications and Beyond Malin Hultcrantz, MD PhD |
| 12:55 рм | Q&A and Closing Remarks |
| 1:00 PM | Adjourn |

RSVP REQUIRED - SPACE IS LIMITED

Registration for this luncheon is complimentary. In order to attend, you must be registered for the $\bf 3^{rd}$ Annual MSK Lymphoma Symposium:
